

## Create your m-Path account

### 1. Download m-Path on your phone

Dive into the epic world of m-Path, the rad app for the IDENTIFYD study. Ready to get started? Just download and create your account by hitting up the App Store or Google Play.

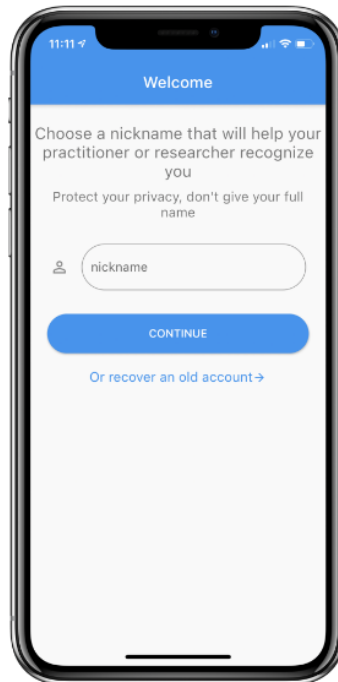

When you search for m-Path in the App Store or Google Play, you might see two versions. The ones on the left (m-Path) are the right ones, and the ones on the right (m-Path Sense) aren't! We've included handy links to help you download the correct app. If those don't work, just tap "App Store" or "Google Play" below!

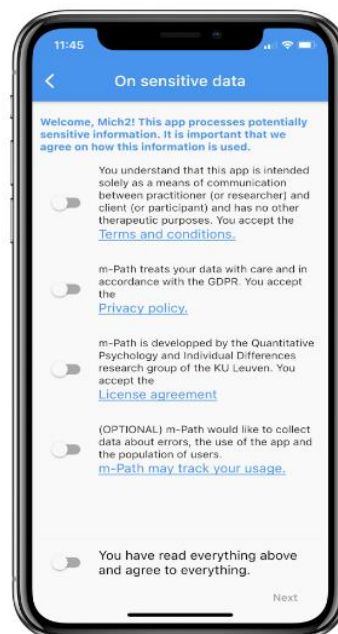

## 2. Provide a nickname

Pick a fun nickname so the IDENTIFYD team knows who you are. Keep your privacy safe by not using your real name.

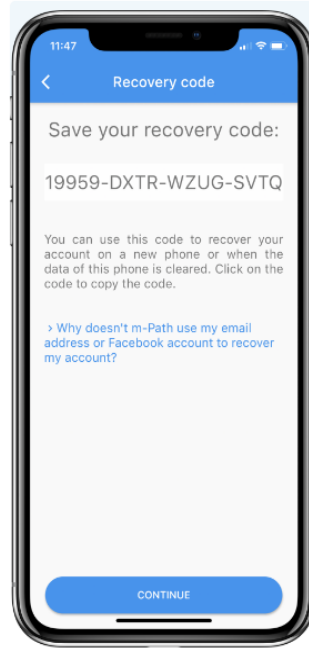

## 3. Read and accept the terms

#### 4. Save your recovery code

Don't forget your [recovery code](#)! This is a special code you'll need if you ever need to get back into your account on a new device or after reinstalling the app.

Tip: Save your recovery code on another device than your phone, such as on your computer or in your agenda.

#### 5. Add a practitioner

The IDENTIFYD team will send you an invitation code. Just enter it when you search for the study/practitioner and hit 'add'

Type the invitation code:

Add the Identifyd Study

## 6. Notifications

Just a heads-up! There's a survey you'll need to complete once a day. You'll get two notifications: one to let you know it's time to fill it out, and another as a friendly reminder.

## 7. Need a break?

If you need a breather or want to slow down on the surveys, just give us a holler. The research crew is keen to rejig your assessments, ensuring you don't miss out on any sweet rewards.

## Email us!

If you run into any issues creating or downloading m-Path, shoot us an email at [identifyd-study@unimelb.edu.au](mailto:identifyd-study@unimelb.edu.au). We've got your back!
